Precision Tubular Products, Fabrication Parts & Industrial Sub Assemblies

ISO 9001:2015 Certified | Fabricating Quality Tubular Products Since 2004 | Manufactured in Canada

Tube Fabrication for Industrial Applications

**REQUEST
A QUOTE**

C&L Tube supports industrial customers with CNC tube bending, end-forming, fabrication parts, and custom sub-assemblies for conveyor, square tube, boiler, marine, oil & gas, and general equipment applications.

INDUSTRIAL APPLICATIONS

- Conveyor Systems
- Square Tube Frames
- Boiler Equipment
- Oil & Gas Equipment
- Material Handling

PRODUCTS

- Square Tubes
- Bent Tubes
- Formed Tubes
- Steel Rod Fabrication
- Fabricated Parts

SUB ASSEMBLIES

- Conveyor Sub Assemblies
- Boiler Sub Assemblies
- Oil & Gas Sub Assemblies
- Equipment Frames
- Custom Sub Assemblies

MANUFACTURING PROCESSES

- Tube Cutting
- CNC Bending
- End-Forming
- Welding / Brazing
- Assembly / Fabrication

MATERIALS USED

- Carbon Steel
- Stainless Steel
- Copper
- Aluminum
- Alloys

Tube & Rod Capability: Round, square, and formed tube components | Custom fabrication and sub-assemblies available.

INDUSTRIES SERVED

Conveyor
